

## PREFACE

The international conference 18th Geometrical Seminar 2014, was held at Vrnjačka Banja, Serbia from May 25th to 28th, 2014.

This Geometrical Seminar was dedicated to academician of the Serbian Academy of Science and Art Professor Mileva Prvanović on the occasion of her 85th birthday.

The 18th Geometrical Seminar, had more than 130 participants from about 30 countries all over the world. This meeting had brought together mathematicians, physicists and engineers interested in Geometry and its applications. The aim of the Geometrical Seminar was to enable researches to give lectures on new results, exchange ideas, problems and conjectures.

This issue of FILOMAT contains papers presented at the 18th Geometrical Seminar. The papers were accepted for publication after having been subjected to the usual strict reviewing process of the journal.

The editors express their sincere gratitude to the reviewers for their thorough reports and to the editors of FILOMAT for their support, in particular, to D. Djordjević and V. Rakočević. The editors also thank the members of the Committees of Geometrical Seminar and to the Faculty of Sciences and Mathematics, Niš, Faculty of Mathematics, Belgrade and to the Faculty of Science, Kragujevac for their great effort in organizing a very interesting conference. Particularly, we thank to Professors David Blair, Mileva Prvanović, Svetislav Minčić, Graham Hall, Uday Chand De, Oldrich Kowalsky, Emil Molnar, Andrey Mironov, Leopold Verstralen and other participants who helped us organize and realize the conference at the highest scientific level.

Editors:  
Ljubica Velimirović and Mića Stanković

Department of Mathematics,  
Faculty of Science and Mathematics,  
University of Niš, Serbia
