

PREFACE

The 28th International Conference of The Jangjeon Mathematical Society (ICJMS2015), was held in Sherwood Club Kemer Hotel, Antalya, Turkey, from May 15 until May 19, 2015, and jointly organized by Akdeniz University - Turkey, and The Jangjeon Mathematical Society, S. Korea. Previous such conferences were held in 2014 Daejeon, Korea, in 2013 Bangalore India and in 2012, Seoul- South Korea.

The conference was devoted to Pure and Computational and Applied Mathematics & Statistics and Mathematical Physics (related to p-adic Analysis, Umbral Algebra and Their Applications). All of these areas are given as follows: Analysis, Algebra, Linear and Multilinear Algebra, Clifford Algebras and Applications, Real and Complex Functions, Orthogonal Polynomials, Special numbers and Functions, Fractional Calculus and q-theory, Number theory and Combinatorics, Approximation Theory and Optimization, Integral Transformations, Equations and Operational Calculus, Partial Differential Equations, Geometry and Its Applications, Numerical Methods and Algorithms, Probability and Statistics and Their Applications, Scientific Computation, Mathematical Methods in Physics and in Engineering, Mathematical Geosciences.

About 130 participants from 19 countries attended the conference and presented their research results. This issue of Filomat contains 28 papers presented at the conference and evaluated following the usual strict editorial procedure of the journal. Chairman of the organizing committee Prof. Dr. Yilmaz SIMSEK has great pleasure to thank members of the Jangjeon Mathematical Society (especially Prof. Dr. Taekyun Kim, Prof. Dr. Seog Hoon Rim, Prof. Dr. Dae San Kim, Prof. Dr. Lee Chae Jang), Prof. Dr. Mustafa Alkan, and also all members of the Committee of ICJMS2015. The editors thank the authors of articles published in this issue, the referees for their kind assistance and help in evaluation of the contributions, and Filomat for the support.

Guest Editors

Prof. Dr. Gradimir V. MILOVANOVIC

Prof. Dr. Yilmaz SIMSEK
